<b>Part 1: The Science Is Clear .....</b>	<b>7</b>
Overview of the Science .....	9
Setting The Earth’s Temperature .....	12
Climate Before the Change .....	14
Human-Caused Emissions .....	16
Self-Reinforcing Warming .....	20
Rising Temperatures .....	21
<b>Part 2: The Dangers Are Frightening .....</b>	<b>23</b>
Heat Waves .....	25
More Destructive Tropical Storms .....	26
Flooding and Drought .....	28
Worse Wildfires .....	31
An Erratic Jet Stream .....	32
Melting Ice and Rising Sea Levels .....	33
Acid Oceans .....	36
Extinctions .....	37
Poverty .....	38
Uncertainty .....	41
Australia .....	45
<b>Part 3: The Solutions Are Available.....</b>	<b>47</b>
The World Must Act .....	49
Pricing Emissions.....	51
Clean Electricity.....	54
Clean Transportation .....	57
Getting to Net Zero .....	60
Global Cooling .....	65
A Note on the Developing Nations .....	69
Environmental Extremists.....	71
<b>Part 4: The Deniers Are Ignorant.....</b>	<b>73</b>
Look at This Selected Bit of Data .....	75
Climate Always Changes Naturally .....	77
It’s Impossible to Have No Emissions .....	79
There’s Too Little Carbon Dioxide.....	80
It’s Cold and Snowing Today .....	81
It Would Ruin the Economy .....	82
It’s a Hoax to Get Scientists Grants.....	83
There’s Doubt So Don’t Act .....	85
<b>Notes .....</b>	<b>87</b>
